Career Summary

I am a highly dedicated and technically skilled IT professional with over 4 years of experience in network administration, software development, and system management. Currently serving as Executive Engineer (Network & Software) at Nassa Group, with a proven track record in designing and maintaining secure and high-performance LAN/WAN infrastructures, implementing firewalls, IDS/IPS, and VPNs, and overseeing end-to-end IT operations. Proficient in developing custom software solutions, enhancing system integrations, automating tasks with scripting, and managing deployments using Git. Demonstrates strong troubleshooting capabilities in both hardware and software environments. Experienced in working with diverse technologies including Mikrotik, MSSQL, C#, and Linux. Committed to continuous learning and driving technological improvements within the organization.

Professional Experiences

Executive Engineer– (Network & Software)

Nassa Group,

CEPZ, Chattogram

10 Jan 2023 to Present

Job Responsibility:

Network Responsibilities: Design and implement LAN, WAN, and wireless networks. Evaluate and recommend networking hardware/software. Monitor network performance and ensure up time. Configure and maintain routers, switches, firewalls, and VPNs. Implement security measures (firewalls, IDS/IPS) and conduct assessments. Troubleshoot complex issues and support end users. Maintain network documentation and ensure compliance.

Software Responsibilities: Design, develop, and deploy software applications. Enhance and maintain existing systems for performance. Ensure integration with networks and third-party tools. Apply secure coding practices and patch vulnerabilities. Automate tasks via scripts and monitoring tools. Use Git for version control and manage deployments.

Executive IT
